***Reissue Applications***

1. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,906,407 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

***Oath/Declaration***

2. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

3. The replacement of means plus function claim limitations with specific structure is a narrowing amendment, not a broadening one. Applicant's could simply state --The reissue application contains broadened claim. The original patent did not include method claims. The new claims added include method claims.--

4. Please include a statement of lack of deceptive intent in the supplemental declaration as follows:

“Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.”

See MPEP § 1414.01.

5. Claims 1-4,6-11,13-14,39-50 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

***Claim Objections***

6. The "STATUS OF CLAIMS" filed 8/4/2006 is objected to because of the following informalities: Claims 5 and 12 are canceled, but are listed as pending. Appropriate correction is required. The defect is not in the claims themselves, but only in the Status table. Please resubmit this table only.

**CLAIMS**

7. No rejection of the present claims is made upon prior art.
